PROFESSIONAL EXPERIENCE

Senior Global HRIS Analyst

Oct 2024 – Present

Prysmian

Milano, Italy

- Managed the strategic oversight and optimization of the Workday HRIS platform for the global organization with 30,000+ employees across 50+ countries, covering North America, Europe, MEAT, LATAM, and APAC
- Coordinated demand and delivery for a company-wide transformation initiative in Workday, focused on rethinking and redesigning business processes to align with the organization's evolving structure. Gathered requirements, collaborated with stakeholders, and coordinated technical teams to ensure seamless implementation
- Designed data pipelines using PRISM ETL to fulfill internal stakeholders' demands and needs. Key projects included monthly signon analysis, intercompany expat recharge flow, LTI plan accrual system, external/internal learning data consolidation flow
- Developed custom in-house integrations and implemented third-party professional solutions leveraging advanced integration tools and API frameworks (WWS), enabling seamless communication and enhanced functionality across HRIS platforms and other enterprise systems
- Working closely with global HR, IT, Payroll, and Cybersecurity departments to integrate Workday with other enterprise systems, ensuring system reliability, scalability, and alignment with overall business goals
- Workday Modules: Advance Analytics, PRISM, Integration, Talent Management, Recruiting
